

ARCHITA BAJPAI

Agra, Uttar Pradesh | architabajpai07@gmail.com | +917505869362 | LinkedIn | Github

PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in AI/ML with experience in developing scalable technology solutions, data-driven applications, and intelligent automation systems. Skilled in Python, SQL, cloud platforms, and full-stack development with strong problem-solving, collaboration, and analytical abilities. Passionate about applying data, AI, and technology to solve business challenges and deliver impactful client solutions.

TECHNICAL SKILLS

Programming: SQL, Java, Python, C++

Core: Data Structures & Algorithms, OOP, Problem Solving, Big Data concepts

Data & AI: Pandas, NumPy, Scikit-learn, PyTorch, NLP

Cloud: AWS, Oracle Cloud Infrastructure (OCI), Docker

Backend: FastAPI, Node.js, REST APIs

Frontend: React, JavaScript, TypeScript, HTML, CSS

Databases: MySQL, MongoDB, Supabase

PROJECTS

EduSaarthi – Real-Time Multilingual Chat Platform | *Next.js, TypeScript, OpenAI API* Jan. 2026

- Developed a real-time multilingual communication platform with AI-driven interactions and persistent data storage
- Structured modular application architecture to support scalability and efficient workflow management
- Enabled multilingual accessibility and scalable real-time communication for diverse users

StraySafe – Real-Time Animal Rescue Platform | *React.js, Node.js, Express, MongoDB, JWT* March 2026

- Developed a full-stack platform for reporting and tracking injured stray animals with geo-tagging and image uploads
- Built RESTful APIs and secure authentication workflows to support scalable case management
- Designed real-time tracking workflows improving operational coordination and response efficiency

Multiple Disease Prediction System | *Python* April 2025

- Developed a multi-class predictive analytics system using 10k+ healthcare records, improving prediction accuracy.
- Implemented end-to-end ML workflow including preprocessing, model training, and automated prediction pipeline
- Applied data-driven analysis techniques to improve prediction efficiency and reliability

EXPERIENCE

Digital Transformation Intern

Cygnux Softtech Pvt Ltd

Jul 2025 – Sep 2025

- Analyzed operational datasets to identify inefficiencies and support process improvements
- Developed insights contributing to digital solutions that improved workflow efficiency and turnaround time
- Collaborated with cross-functional stakeholders to analyze business requirements and support delivery of scalable digital solutions improving operational efficiency.

Full Stack Developer Intern

Give My Certificate

Apr 2025 – Jul 2025

- Designed and developed scalable full-stack applications and REST APIs supporting business workflow automation and improved user experience.
- Developed RESTful APIs and improved application performance and responsiveness
- Delivered production-ready features in collaboration with product teams using iterative development practices

EDUCATION

B.Tech – Computer Science & Engineering (AI & ML)

2023 – 2027

VIT Bhopal University | **CGPA: 9.05**

Air Force School, Agra – CBSE

Class XII – 77.6% | Class X – 92.8%

ACHIEVEMENTS & CERTIFICATIONS

- **National Finalist, 2nd Place winner, ZS Campus Beats '26** | May 2026
- **Finalist, Jury Award Winner, SanDisk hackathon (VIT Vellore)** | March 2026
- **Finalist, Serve-Smart Hackathon (IIT BHU)** | January 2025
- **OCI Certified Generative AI Professional** | Oracle | 2025
- **OCI Certified Developer Professional** | Oracle | 2025
